TAKE THE SURVEY

New Zealand Sociology is the official journal of the Sociological Association of Aotearoa New Zealand and an important forum to share and nurture sociological scholarship and encourage robust debate and critique since 1986.

The journal's new editorial team is planning to refresh the journal and strengthen its contribution to New Zealand's science community. A number of changes, such as a new website, digitization of back issues and the switch to an online first publication system have already been implemented.

To help us improve the journal further, we would like to get your input.

The anonymous survey will take approximately 5 minutes.

Please submit your responses by Friday 22nd October.
